MASTER CLASS DI CHIRURGIA

XIV CONGRESSO NAZIONALE UNISVET

East End Studios
Milano

MASTER CLASS DI CHIRURGIA

14-15 febbraio 2020

MINIMALLY AND MAXIMALLY INVASIVE SURGERY

The boundaries of what is possible in veterinary surgery keep being pushed and surgeons must increasingly be able to perform both maximally-invasive and minimally-invasive procedures. This masterclass will give you information on these opposite fields of surgery to widen your perspective and expand your surgical skills.

LEZIONI IN LINGUA INGLESE

INFORMAZIONI

Direttore della Master Class:

MANUEL JIMÉNEZ PELÁEZ

DVM, MRCVS, Dipl. ECVS

Dr. Jiménez Peláez graduated from the Facultad de Veterinaria de Córdoba (Spain) in 1999 and is a European Specialist in Small Animal Surgery, having worked as a surgeon in France (Frégis Referral Hospital in Paris) and the UK (AHT and Davies Veterinary Specialists) veterinary referral hospitals for 13 years before returning to Spain in 2013. He is one of the founding partners and managers of the multi-disciplinary hospital AUNA ESPECIALIDADES VETERINARIAS in Valencia (Spain), where he currently undertakes soft tissue surgery, traumatology-orthopaedics and neurosurgery. A regular lecturer at national and international conventions, he has also authored and edited numerous clinical publications.

LAURENT FINDJI

DVM, MS, Dipl. ECVS, MRCVS

Laurent graduated from Paris' vet school, in France, where he subsequently was assistant instructor in anatomy and intern in surgery. He then obtained a Master of Science in Biology and Physiology of Circulation and Respiration, as well as a university degree in Experimental Surgery and Microsurgery. He completed an ECVS residency at the Centre Hospitalier Vétérinaire Frégis and became a diplomate of the European College of Veterinary Surgeons in 2008. Laurent worked at VRCC Veterinary Referrals in Essex, from 2006 to 2014, where he was one of the full-time soft-tissue surgeons and directors. He currently is a senior surgeon and director of the Fitzpatrick Referrals Oncology and Soft Tissue hospital. His fields of interest include oncologic, reconstructive and general soft tissue surgeries.
