COURSE DIRECTOR:

Dott. Loris Barale, DVM

Organized by:

DESCRIPTION

Il **dolore nel gatto è molto complesso** soprattutto nel riconoscimento delle sue manifestazioni; inoltre, anche la sua terapia è complessa a causa delle peculiarità tipiche di specie e anche al minor numero di trattamenti farmacologici a disposizione rispetto al cane.

In questo corso ci sarà la possibilità di **imparare a riconoscere e trattare il dolore nel gatto** grazie all'esperienza di **3 esperti mondiali di algologia felina** che attraverso i loro studi hanno permesso di evidenziare molte delle espressioni comportamentali del dolore.

Si valuteranno il **dolore acuto e cronico** e la loro terapia in base alle più recenti pubblicazioni e scoperte in ambito algologico.

Pain in cats is very complex, especially in the recognition of its manifestations; moreover, its therapy is complex due to the peculiarities typical of the species and also to the lower number of pharmacological treatments available compared to the dog.

In this course there will be the opportunity to **learn to recognize and treat pain in cats** thanks to the experience of **3 world experts in feline algology** who, through their studies, have allowed us to highlight many of the behavioral expressions of pain.

Acute and chronic pain and their therapy will be evaluated on the basis of the most recent publications and recent discoveries in the field of algology.

Programme of Saturday 4 NOVEMBER 2023

08:30 - 09:00	<i>Registration procedures and Welcome Coffee</i>
